Ezethu and Do4SA

FUNDS

Total amount of R437 000.00 reflected in Do4SA's account on the 22nd of September 2021.

PROJECT

The project aims to self-sustainable 2m x 1m vegetable gardens in and around Gqeberha.

The very first training session took place on 20 October of 2021.

FUNDING

Thank you to Malcolm Stewart, that helped us to receive this funding. With this funding we already made sure that 1295 individuals have food security in this uncertain time.

The funding helped us as Do4SA to make a remarkable difference in the

lives of so many. This way, we are not only ensuring food security with many households but we are also teaching people necessary life skills as well as providing a way for them to eat healthy and even create a SMME.

CONCLUSION

This project is not only touching the lives of individuals but, touching the lives of households, schools, daycare's and so much more. Knowledge is the best power anyone can have. Therefore we are empowering people to take control of their own situations.

Do4SA would like to thank you, Ezethu Trust Fund, once again for this amazing opportunity we have to touch and change the lives of so many.

Thank you to Mr. Malcolm Stewart for your support and understanding with the projects at Do4SA.
